Oct. 4-1801

Annual Report

OF THE

Town of Belmont,

FOR THE YEAR ENDING

February 15, 1894.

E. P. THOMPSON

ANNUAL REPORT

OF THE

TOWN OFFICERS

OF THE

Town of Belmont,

COMPRISING THOSE OF THE

Selectmen, Treasurer, Town Clerk, School Board,
Road Agent and Trustees of Public Library,

FOR THE YEAR ENDING

FEBRUARY 15, 1894.

LACONIA, N. H.:
LEWIS, VAUGHAN & CO., PRINTERS.
1894.

SELECTMEN'S REPORT.

VALUATIONS.

No. of polls, 314,	$ 31,400 00
Real estate, acres, 18,531,	360,458 00
No. of horses, 383,	22,982 00
oxen, 90,	3,434 00
cows, 515,	10,551 00
other neat stock, 155,	1,955 00
sheep, 252,	946 00
hogs, 15,	86 00
carriages, 11,	590 00
Stock in public funds,	644 00
Stock in banks,	11,100 00
Money on hand, at interest or on deposit,	15,622 00
Stock in trade,	19,496 00
Mills, factories and machinery,	25,800 00
Value of buildings not designated,	2,690 00
	$507,638 00

APPROPRIATIONS.

For State tax,	$ 1,400 00
County tax,	2,151 48
Schooling,	1,120 00
Extra,	150 00
Charts and maps,	50 00
Town charges,	500 00
Highways and bridges,	2,000 00
Memorial day,	50 00
Library,	200 00
Per cent. added,	246 91
	$7,868 39
Total amount for schooling,	$1,809 24

Poll tax, $1.55.

ASSETS.

Taxes in hands of J. H. Currier,	$293 96
Cash in hands of Treasurer,	344 62
	$638 58

LIABILITIES.

Due on note at Laconia National Bank,	$300 00
	$338 58

Water Works.

Outstanding bonds,	$9,900 00
Interest to Feb. 15, 1894,	49 50
	$9,949 50
Cash in Treasurer's hands,	88 65
Net indebtedness on water works,	$9,860 85
Assets as above,	338 58
Indebtedness of town above means,	$9,522 27

WATER WORKS.

In accordance with the vote of the town, passed at an adjourned meeting, April 15, 1893, we purchased the works and franchises of the Belmont Aqueduct Co., for the sum of nine thousand nine hundred dollars, paying for the same in 20 year 4 per cent. town bonds at par.

We were satisfied that this amount represented the actual cost of the works and that the construction had been carried on as economically as is possible in such undertakings. In arriving at this conclusion we were aided very materially by the report and advice of the special committee chosen by the town to guard and protect its interests during the construction of the works.

In the deed of transfer the town acquires the rights and franchises of the Belmont Aqueduct Co. which that company obtained from the Legislature of 1893, by charter. The town also acquires all the water rights to several acres of spring land; one reservoir with a capacity of 115,000 gallons, and three wells holding in the aggre-

gate 20,000 gallons, the wells being connected with the reservoir by two one and one-half inch pipes. There is 3,747 feet of 8-inch, and 2,484½ feet 6-inch main pipe, and 4,300 feet 4-inch and several hundred feet ¾-inch pipe for branches, 20 hydrants, 500 feet hose, hose carriage and various tools that go to equip the system for fire purposes. The quality of the water is excellent and the supply is deemed sufficient for all practical purposes and doubtless will meet all the demands that are likely to arise. However, in case of an excessive drouth, should the supply fall short, the system is connected with the Gilmanton Mills, so that its force pumps can be set at work and the reservoir filled in half a day's time, the water coming through the penstock which connects with the pond above the village, thus ensuring as pure water as is usually found in larger villages and cities. Therefore we have all the advantages of a pumping station without any extra expense. The automatic sprinklers of the Mills are supplied with town water, and the rigid rules of the insurance companies compel the Corporation to see that there is not a minute in the year that the sprinklers are not fully supplied, so it can be seen that no pumping station could be more ready to meet its requirements than would the mill in case of low water. Although the works were not completed until late in the fall 38 faucets were rented before the season closed and the prospect is that the number will be doubled this year. We would suggest that it would be advisable for the town to charge itself annually with a moderate sum for the use of the hydrants, which with the income from the faucet rentals will be ample to redeem the bonds at maturity.

We have made the following

RULES AND REGULATIONS.

Annual Rates.

The following rates are established until further notice:

Family not exceeding five persons, single faucet,	$6 00
Each additional person in same family,	50
Bath tub or water closet of approved pattern,	3 00

Hose for washing windows or carriages, or sprinkling lawns, not exceeding one hour per day, through one-eighth inch nozzle, $ 3 00
Builders' rates per barrel, 05

Hotels, steam engines and motors, metre or special rates.

When water is used for purposes not specified in the foregoing it may be drawn through a metre or a rate will be fixed by the Superintendent upon application.

Metre Rates

Not exceeding 24,000 gallons per year, $10 00
Each additional 1,000 gallons, 25

Contract.

Every person taking water thereby consents to the following regulations, and agrees to be bound by them and such other regulations as the Selectmen and Superintendent may hereafter establish.

Application.

All persons desiring to take water shall make application to the Superintendent, stating fully and truly all the purposes for which it is to be used; and should additional use at any time be required the person requiring the same must notify the Superintendent before such additional use will be allowed.

Service Pipes.

The town will furnish a corporation with a stop, from the main pipe. All service pipes must be provided and maintained by the person supplied with water.

Persons taking water must keep their own water pipes and all fixtures connected therewith in good repair and protected from the frost at their own expense. They must provide a stop and waste cock, to be properly located inside the building and have the pipes so arranged that the water can be drawn from them whenever and wherever there is danger of its freezing.

Use of Water.

The water at sinks and all other places *must not be left running* to prevent the water in the pipes freezing, or

for any other purpose; *and all unnecessary waste of water must be prevented.*

No owner or tenant will be allowed to supply water to other persons or families, and if found so doing the supply will be stopped and the water rent already paid forfeited.

INSPECTIONS.

The Superintendent must have free access at all proper times to all parts of the premises where water is delivered and consumed.

STOPPAGE.

No person shall open or close any public fountain, hydrant, stop cock, water gate, blow-off or air vent, attached to any water pipe belonging to the town except by permission of the Superintendent. Provided, however, that this shall not apply to firemen while in the proper discharge of their duties as such.

The town reserves the right to shut off the water for making repairs, extensions or other purposes, without notice, and no person shall be entitled to damages by reason of such action of the town.

METRES.

No engine, motor or stable shall be supplied except with metered water, nor shall water be supplied for any other purpose than domestic use, except by meter.

BILLS PAYABLE, WHEN.

All water bills shall be payable semi-annually in advance, to the Superintendent on the first days of June and December.

If water rents be not paid within fifteen days after they become due, the flow of water may be cut off, and one dollar will be charged for turning it on again.

Water rents will commence when service is laid.

WALTER C. WELLS,
JOHN W. FARRAR,
ANDREW J. YOUNG, } Selectmen.

We have examined the foregoing accounts and find them correctly cast and properly vouched.

TREASURER'S REPORT.

To the Selectmen and citizens of Belmont, N. H.— With this you have my report of receipts and expenditures as treasurer of said town for the year ending February 15, 1894.

1893.

PUBLIC LIBRARY REPORT.

To the Selectmen and Inhabitants of the Town of Belmont:

We submit our first annual report of the public library.

For the year there were 4,949 volumes given out,—a very creditable showing for the first year. The reading room was not patronized as we hoped it would be and we do not think it profitable to furnish as many magazines as for the past year.

The library was started through the donation of Mr. Avery A. Lawrence, who gave $400 worth of books, which with the $100 worth from the state gives us about 850 volumes. More books will be added as the amount of money in the treasury will permit.

Donations of books or magazines will be thankfully received and acknowledged.

Below we give the financial condition.

RECEIPTS.

1893.	
Jan. 2. D. W. Gale, treasurer,	$225 00

SCHOOL REPORT.

The School Board, in compliance with the law, respectfully submit the following report :

Our teachers as a class have been faithful in the discharge of their duties, and have shown themselves worthy of the position they occupied. Whatever exceptions there may have been to success, there has been encouraging progress ; and in most cases satisfactory advancement. If parents generally have not manifested an active interest in the success of our schools, they have not directly thrown obstacles in the way of their success.

To aid in securing the attendance of children who had been accustomed to absent themselves from school a truant officer was appointed who proved to be decidedly helpful in this work. We are happy to be able to report a better and more uniform attendance than formerly.

The Primary room in the North school building in the village is in no way suited to the necessities of the school, and for this reason some parents have not deemed it wise to send their children. We hope for better accommodations in the near future.

We wish to call special attention to the record of tardiness found in the tabular statement. In order to emphasize this point we make the following summary :

Ladd Hill, winter term, one scholar tardy twenty-four times, and average tardy marks for each scholar, seven. Jamestown, fall term, one scholar tardy thirty-six times, average for each scholar, nine. Clay, fall term, one tardy twenty-seven times, average for each, ten. Whole number instances tardiness in town 928, or an average of four and two-sevenths for each scholar in town. If there was a good excuse for this waste of time and consequent demoralization in school work, it might be tolerated. But there is no good reason for this whole sale tardiness.

In most cases children start for school in season, but loiter on the way. Usually the parents suppose they go directly to school, and the teacher thinks they are detained at home. We suggest that in the future teacher and parents work together and eradicate this habit.

In some towns scholars having ten tardy marks

against their names are suspended until their case is investigated, and if the evil cannot be stopped they are expelled from school.

At the commencement of the fall terms it was found necessary to hold schools in two houses that had not been used in recent years, the Clay and Lower Province Road. The buildings were put in condition and schools instituted with an attendance of eleven and ten scholars respectively. In accordance with a vote of the district two school charts were purchased, making five in the town. In addition to the regular text books needed, one globe and six dictionaries were provided.

Whole number of scholars in town not under five years of age who have attended school not less than two weeks, 214.

Number of children in town between the ages of five and fifteen years as reported by the selectmen: males, 75, females, 72; total, 147.

Whole number of teachers employed during year,	14
Number who had taught in town before,	8
teaching same school more than one term,	7
" first time,	6
residing in town,	11
